New York, March 27 (A.P.).—Aggressive short selling, coupled with another flood of liquidating sales, turned stock prices sharply downward again today with a number of merchandise, food and public utility issues depressed to new low levels for the year. Selling was of an urgent character in many instances, and numerous issues of three to eight points resulted. The reaction started with a break of eight points in General Asphalt and quickly spread to other industrial shares, which were unable to command immediate support. U. S. steel fell back to 12 1/2, but later recovered to 12 1/2, and extreme declines of 4 to 6 points were registered in other holdings.

WIFE AND HER MOTHER HAD SEIZED RUM, SAYS JAIL PROBE WITNESS

Augusta, Me., March 27.—Sheriff Henry F. Cummings of Kennebec County supplied whiskey, wine and alcohol to wealthy young Eugene LaBar, his wife and mother-in-law, over a period of more than a year, according to an affidavit made by LaBar and read today at the impeachment proceedings against the sheriff before Governor Brewster and the executive council.

"When Mrs. LaBar or her mother needed wine or alcohol I would telephone Sheriff Cummings," said LaBar in his sworn statement. "Sometimes he would bring it up to us, and sometimes I would go down to the jail to get it."

It was after the recent filing of court actions directed against each other by LaBar and his wife that stories circulated about the State Capitol of parties, which society folk and public officials attended and at which government-seized liquor was imbibed.

Part of the young Augusta merchant's affidavit was suppressed by agreement of both sides at the impeachment hearing.

GIVES ORAL TESTIMONY.  
Taking the witness stand in person, Eugene LaBar created the sensation of the spectacular trial of the sheriff by supporting his affidavit with calmly-given oral testimony.

"Did you ever visit the sheriff at the jail?" LaBar was asked.

"Yes, sir," he replied.

"Did he ever give you any liquor?"

"He did."

"How much?"

"He gave me a quart or so at a time."

Governor Brewster repeatedly rapped for order as spectators in the packed Council Chamber audibly ex-

The estimate is based on the results of examinations conducted by 2,000 accident cases. Of the estimated 66,000 with impaired vision, 12,000 are believed to be color blind, 10,000 below normal vision, and 2,000 blind in one eye.

The tests were conducted by 190 Continued on Page 2, Column 2.

ermin, real estate dealer, of Gardiner.

"Legislators and lawyers and others went there at all times of the day and night," testified Robertson. "That's why I considered it a house of questionable repute."

The house in question was a rooming house conducted by Mrs. Maude Clements, and Robertson, who roomed at a house close by, said he sat in his window night after night and listened to or watched events "across the way."

"You make the best home brew I ever tasted, Maude," he said he heard Sheriff Cummings say one night. He firmly refused to say who the members of the Maine Legislature were whom he saw entering the place, but he will be called to the stand again for cross-examination next week.

Other residents of the Clements house testified to "peculiar activities." The house is only a few minutes' walk from the county jail, from which prisoners, according to previous witnesses, came and went almost daily.

### SAW DRINKING

Robertson testified that in 1924 he roomed at a house next to the Clements house, and sitting in the window of his room he could sometimes see drinking at the other house.

"One night I saw four persons, two men and two women, in the room just across the way," said Robertson, under questioning by Prosecuting Attorney Elmer. "The curtain over there was up about six inches and I could see the people, though I couldn't see their faces. I heard a lot of hysterical laughing, and one man whose voice carried across to my room shouted 'You make the best home brew I ever tasted, Maude.'"

"A party with me said that was Sheriff Cummings' voice."

"A short time afterward the sheriff went to the telephone and drew away in an automobile. That was about 10 or 11 o'clock."

"After my marriage, in 1925, my wife introduced me to Sheriff Cummings at a dance. On the way home I told her the story of the house and my wife said, 'Oh, the sheriff is a jolly fellow, and I think that's too bad.'"

Witnessed by Judge Joseph B. F. Connolly, counsel for Sheriff Cummings, Robertson testified that the sheriff when the latter came out of the Clements house and got into the automobile, and he easily distinguished his features.

Robertson said he saw something dark-colored in the places held by women in the rooms of the Clements house.

"Well, what was in those places?" snapped Judge Connolly.

"I can't say," replied Robertson. "It might have been cold tea."

Speakers in the council chamber laughed as Governor Brewer repeated for order.

Robertson said some girls roomed at the Clements house.

Robertson said that, although he thought it strange the sheriff visited as a place of the kind, he did not consider it anybody's business.

ONLY THREE ONCE.

Q.—You observed the house all summer, but only saw the sheriff there once? A.—Yes.

Q.—Did you ever watch the house in the winter? A.—Yes, I watched it then, too.

Q.—And you saw legislators there? A.—Yes, sir.

Q.—Do you know who they were? A.—I do not care to answer.

Judge Connolly appealed to Governor Brewer to make the witness speak.

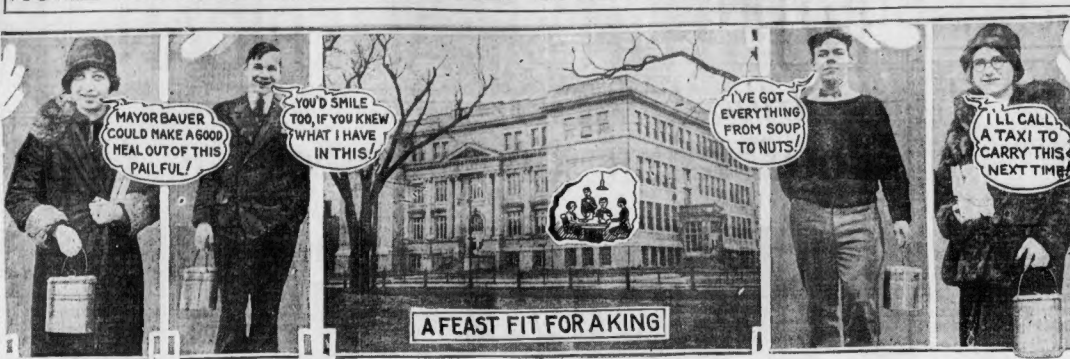

"This is an inquiry of a very serious nature," said the sheriff's attorney. "Anything that has a bearing on the character of this house is relevant to the matter."

Judge Connolly added that he understood the proprietress of the house had appeared before State Chief of Police Field and had left the city.

"I have no desire to make public the names of any poor fellows who had legitimate business at the house," he said. "They might have been roomers there."

By agreement the witness was excused, with the understanding he would be called later for cross-examination.

## LaBar, in Affidavit, Pillories Sheriff

How Sheriff Henry F. Cummings of Kennebec County, Maine, supplied the wealthy La Bar family of Augusta with whiskey, alcohol and wine was told at the hearing on charges against the sheriff, when an affidavit made by Eugene L. La Bar to the chief of the State Police was read.

The affidavit was as follows: "I, Eugene L. La Bar, on oath depose and say that I first met Sheriff Cummings in the summer of 1924 while I was living at my farmhouse at Readfield. He was friendly with the family, especially with Mrs. Ramsey (La Bar's mother-in-law). "Mr. Cummings quite often brought a supply of liquor to the house, usually a small amount at a time. Sometimes he brought whiskey, but more usually alcohol and wine. He would state that he brought it for medical purposes. "Some of it was given to Mrs. Ramsey, some to Mrs. La Bar. Neither Mrs. La Bar nor Mrs. Ramsey so far as I know had any sickness revealing the use of intoxicating liquor as a medicine."

## POLICE REWIVE MAN OVERCOME BY GAS

Police officers using the Schafer method of resuscitation saved the life of Thomas V. Farrell, Dorchester, radio and taxi man, who attempted suicide by gas in his home at No. 42 Cameron street, Dorchester, today. He is recovering in City Hospital.

Farrell distinguished himself in December, 1922, when, after the murder of Frank E. Small, Dorchester druggist, by Alfred W. Bartlett, the taxi driver, forced at the point of the murderer's revolver to drive him from the scene of the crime, which stopped his car and jumping out, called police officers, who arrested Bartlett.

Farrell was praised for his brave stand in defying the murderer's death threat.

Dependancy over the recent death of his wife is believed to have prompted Farrell in the attempt to end his life.

When Sergeant Edward Moore and Patrolman George Boden and Correllus Crowley of the Adams street station reached the Farrell home in response to an emergency summons they found the taxi man unconscious.

Joseph McLanney, associated with Farrell in business at No. 405 Bowdoin street, when summoned to the Farrell home by neighbors who smelled gas, broke down the doors and found his partner lying fully clothed across a bed. He was unconscious and every gas outlet in the apartment was wide open.

McLanney carried Farrell's limp form outdoors to a veranda, then summoned the police.

The officers worked for nearly an hour before Farrell was revived and hurried to the City Hospital.

## COP SLAYERS WAS RECOGNIZED AS WAR VET

someone familiar with the electrical business. It was pointed out that Conesus was a telephone line man before joining the police department and that his slaying might have resulted from trouble with fellow workmen. As a result of the capture of the two latest suspects, it was said that another man will be taken into custody.

The presence of a blood stain on the coat of one of the men was explained by him as having resulted from a fist fight in which he participated a short time ago.

Matthew J. Delaney of Division 11 has ordered a check up on 100 youths between the ages of 16 and 25, who have records at the probation office.

Three other suspects held at the Dorchester police station were today declared to have been placed 10 days from the scene of the shooting on the night it occurred.

The police said the three, who are young men, were seen at the foot of Dickens street shortly before the slaying, and they believe the slayers were on their way to join others when Conesus intercepted them.

The men in question were taken into custody on Clayton street, and according to the police, were members of a gang which indulges in petty thieves and bootleggers. One of the trio now held is said to be on parole from Dorchester island where he was given a ten month's sentence for forgery.

The police are confident the youths know the names of the men and had a rendezvous with them on the night of the shooting.

The state is said to have made its headquarters in a place run by a woman, which is under surveillance. Certain of the members, the police say, have committed road blockades, and, similar to those of the slayers shortly before they shot Patrolman Conesus to death.

A new witness, who declared he recognized one of the slayers of Patrolman Conesus running away after the shooting, was found by the fellow officers of the victim today.

Boston police heads stopped the system of wholesale arrests on two grounds: first, the search for "suspects" meant too many arrests from the actual trail of the murderers, and, again, the numerous arrests would be used by a clever defense lawyer to create a feeling of doubt in the minds of the jury if enough is brought to trial for the slaying.

FUNERAL MONDAY.

Police details for duty at the funeral of Patrolman Conesus, which takes place Monday morning from St. Anne's Church, Neponset avenue, were announced today.

The escort, headed by Captain Louis C. Lutz, department drill master, will consist of Sergeant Thomas B. Kavanagh, assistant drill master; Sergeant Harry M. Dickinson, Division 8; Benjamin Wall, Division 11; Patrick J. Maguire, Division 15; George H. Bird, Division 20; Edward J. Kelley, Division 21; and forty-eight patrolmen, Division 11, the station of the slain officer, will furnish a detail of six men as marchers.

Commanding officers were instructed to select men who have had military service, to wear dress coats and caps with white gloves, and to report to Captain Luis at 10 o'clock at Neponset avenue and Chickadee street.

The military burial ritual will be read by Patrolman Max Siner of Division 2.

At the first annual ball of the Theatrical Press Agents of America at the Copley-Plaza on Wednesday, April 7th, the dramatic editors of Boston will be drafted for special service as judges to determine the prize winning costumes. Oh, death, where is thy sting?

The advantage of having a good actor in the "heavy" or villainal role in a play is well exemplified in the pictured spectacle of "Ben-Hur." Francis X. Bushman in the role of the villainous, treacherous, and cruel character of the Ben-Hur of Ramon Novarro. True, he appears to have the physical advantage of the less sturdy Novarro, but it is to be regretted that he is not as good an actor as Novarro. The redoubtable and well known actor, Lew Wallace, says that Ben-Hur spent three years in the gallery and on the stage, and that he was constantly training at the oar, and afterward entered athletics, in which field he has proved as an arena champion. He is a very good actor, and is a magnificent physical specimen.

He has been an athlete in various sports, and has won a number of prizes. He is a graduate from Ammedale College in Maryland he became, in turn, a member of the Phi Kappa Psi Fraternity, and he has been a member of the Phi Kappa Psi Fraternity. He is always a lover of horse. It is said that he was not adverse to swinging a golf club, and he has been known to swing the golf club of his friends. This latter information may explain the reason why he is so popular in the racing circles. He is a very good actor, and he is a very good physical specimen. He is always a lover of horse. **SUB-DEBUTANTES** AND their youthful acquaintances danced merrily at the Chilton Club at one of the late season very young set parties now dotting the calendar since fashions of more mature order are in the discard.

**MISS NANCY OLNEY**, daughter of the Richard Olneys of Fairfield street, and Miss Dorothea Frothingham, daughter of the Theodore Frothinghams established for the winter at the Hotel Charles gate, were the specially honored girls.

A **LIVELY** musical contingent to assist the girls was drawn from freshmen, sophomores and exiles from Cambridge and Harvard Frothinghams, Harvard, 1921, teacher of Miss Theodore, was, so to speak, master of ceremonies and lend a hand.

**THE LADIES** and most efficient usher corps (really they did their duty with great assurance and aplomb) were John Tudor, William Elkins, Stephen Millett, James Richard Olney, Jr., Dudley Wood and J. Cunningham Gray, Jr., among others.

**TWO OUT-OF-TOWN** girls, guests of Miss Frothingham over the weekend, shared fellowship with their youthful hostess. They were the Constance Hutchins of Philadelphia and Miss Helen Kounine of New York.

A **PRELIMINARY** festivity, Mrs. Richard Olney entertained at a buffet supper for the tea specially honored birds, some of their intimates and the usher squad—a gallantly informal pretense to a dance.

**NEARLY A ROUND** hundred of these enthusiasts dined and danced much after the more sophisticated ways of their elders. The tea room, prettily lighted with tinted candlelight to enhance the simple flower decorations was in animation.

**IT WAS AN AFFAIR** with Mrs. Dudley R. Howe at the helm, just as last year's similar dance in the same hotel. The "sweet" youth of daughter is Miss Katherine, a very member of the liberos' family, and that evening and merrily and otherwise athletically disposed.

**THE LIGHTER SIDE** of commencement week is exemplified by the Hasty Pudding Spread and the Beck Hall Tea, easily the smartest and most brilliant hostess, with the second named topping the scales a bit.

**RICHARD TRIMBLE**, important Harvard senior and Forellian Club member, is this season arranging the Beck Tea and some twenty-four Forellian men share with him in dispensing their famous hospitality.

Pittsboro, N.H., March 27.—Cambridge, despite the fact that it was outwitted by its brawny opponents, won the 7th annual boat race with Oxford today.

The light blue crewmen started the race as slight favorites, but finished five lengths ahead of the Ox on the last mile, despite the fact that the Oxford crew was outwitted by the Cambridge crew on the last mile.

**FORD WINS TONS.**

Oxford won the tons and elected to the Blue side of the river. The starter's gun cracked at 12:27 and both crews went across the line at the same time, with the Cambridge crew winning by a slight margin.

## The Importance of Being Well Dressed

Thanks to Democracy

In the time of Louis XIV only Royalty and the favored few could afford the bejewelled silk costumes of State occasions.

Today, thanks to the democracy of governments and men, extravagance has almost entirely given way to conservative good judgment in men's dress for formal occasions.

In fact dress clothes are now indispensable to men who would go beyond mediocrity in our modern civic and social life.

For correct full and semi-dress attire at prices befitting your income read the Men's Clothing advertisements in the Boston Evening American and the Daily Advertiser.

## MEDBURY SAYS

By John P. Medbury

NOW that women are rewording the barber shops, men are beginning to flood the beauty parlors.

THEY'RE trying to keep that scotchboy complexion.

ONE mechanic went into an exclusive Fifth Avenue salon the other morning and had his beard bobbed.

HE SAID it was beginning to get caught in the machinery.

HE TOLD the proprietor that he had stopped going to barber shops because they are so efficient.

THE last time he was in a tennorial parlor he had to get out of the chair four times to give his seat to a lady.

HE SAID it was pathetic watching a woman and a barber trying to get the last word.

THE woman won because she had twice as many chin teeth.

SHE talked so fast that she burned out three chin teeth.

BUT she didn't care, she had a new plan.

## DAILY SHORT STORY

GRANDMA HOLWORTHY, with a bunch of first spring blossoms in her hand, stood on the steps of the Miltons' home and headed in an uncertain manner which was foreign to that usually determined little lady. She looked vaguely at the great brown door before her, as though asking its advice or reassurance.

It was a somewhat-looking house anyway, thought Grandma Holworthy, always lacking in cheer. The girlish voice of Grace Milton ringing through the hall had not aroused it from its slumbery mood! For to Grandma Holworthy a house bore something of a personality, either its hands were stretched in welcome or its repellent you with a cold shiver.

The Milton house replied.

And now the house had a new mistress, for Mr. James Milton, Grandma's father, had brought home a bride from a far city—a stranger in the little town.

Door Opened

Suddenly the door swung open before her, and the stranger, herself, stepped out. She was a tall, dark, and tired woman, with a pale face and tired eyes, but she smiled graciously to Grandma and timidly held out her hand as the little lady walked up the steps to her.

"I know you," she exclaimed.

There was silence for a moment as the young woman and the old looked at each other in eager expectancy.

"I need not have worried about her after all," thought Grandma Holworthy with a sigh of satisfaction. "I hear you have been a business woman," she said aloud.

"I have worked in an office for years," the other told her. "Very hard, monotonous sort of work—very mechanical. No, I have no head for business. It was necessary I had to make a living somehow."

"And now you have a husband and a home," Grandma's lips were contemplative.

"Yes," said Grace Milton gravely. "And I hope I shall not fail in making a success of this business, too."

"You have done!" asked Grandma with a winking of her old blue eyes.

A shadow seemed to pass across Grace Milton's face—almost a look of pain.

"Will you be a real friend, and listen?" she asked impulsively.

Grandma reached across and clasped her hands. "My child, tell me all that troubles you," she said.

Quick tears sprang into the violet eyes before her, like a mist of spring rain. Grace Milton pushed back a lock of silvery blond hair from her high white forehead, with a trembling hand.

"You dear girl!" asked Grandma kindly.

"A presence," the other answered, and shivered ever so slightly. "I know—I will think me queer, I know, but I feel a stranger here, an intruder—I really have no place, and should never have come! Everything speaks so plainly of her—and it distresses me to think of her!"

"Why, have Grace and her Aunt Eunice?"

"Oh, no, they've been most kind! And yet I feel that Grace does not like me. She looks into my eyes, and thinks of her evil mother."

"I believe that you are allowing yourself to be a very foolish and extremely selfish woman," said Grandma.

"How can you say that?" A flush sprang suddenly into Grace Milton's pale young face.

Haunts Her

"Let us look at this matter squarely," said Grandma. "If Grace's mother of whom you are always thinking—the first mistress here, the housemaid, the never lived here, and I did not know her, but I have heard that she was a very splendid woman, of fine mind and capable and capable."

"I know, and she was a devoted mother."

"And what have you done?"
